Besides partner organisations mentioned under projects, we have also received help from:

Bradfords Building Supplies, Glencora Trust, NHS Forest, Prospect View Medical Centre, Three Counties Traditional Orchard Project, Travis-Perkins, Western Power Distribution, Worcestershire Community Foundation.

If you would like to become a member of Malvern Community Forest, please subscribe via www.malverncommunityforest.org.uk. The cost is £5 per year.

We are always grateful for donations of any size from individuals or organisations.

We are a Registered Charity: Number 1142997

Bringing

Trees and People

Together

Hedgerows, Woodlands, Communities and Generations too!

If you have questions about our projects or would like to be on our mailing list email, contact info@malverncommunityforest.org.uk

If you would like to join in our projects, you can find out when they are happening on www.malverncommunityforest.org.uk
or on our Facebook page: https://www.facebook.com/groups/368187716605516/
When you come along, you will need to wear some sturdy footwear, weatherproof clothing that you can stand getting dirty or developing some wear and tear. We'll provide tools, work-gloves, tuition and plenty of hot drinks and biscuits.

Version 010719

Prospect Community Woodland sits between Bradfords Building Supplies and Prospect Medical Centre on Pickersleigh Road. We are transforming it from a waste site into a woodland and glade for the health and well-being of the local community.

Come along on the third Sunday of the month from 10-noon to improve access, look after the glade and woodland, and make it a special place for everyone.

Abundance hates seeing fruit go to waste and every autumn we pick fruit that would otherwise just fall to the ground and rot. We distribute the fruit to anyone else who would like it, including the food bank. Our pickers take what they wish, and we juice the remainder in order to preserve it.

If you have fruit that needs picking or would like to join our friendly volunteer team, please contact Linda on 01684 892906.

Townsend Community Woodland is long, narrow woodland running along Townsend Way from Newland to Mayfield Road, which we jointly manage with the owners, Malvern Hills Trust. A hidden gem of wildlife and unexpected tranquillity.

Our latest projects including coppicing one of the older groves, and restoring some osiers, used for traditional basket-making.

Hands-on projects with trees and in woodlands that respond to the climate crisis, to wildlife and habitat losses: working and learning together and improving well-being

Cuillins Wood is privately-owned woodland off St Anns Road where we run school-holiday sessions for families with children from 3 to 13. A range of activities from mud-kitchens to den building to treasure hunts to carving to dirt-abseiling and much more give children the opportunity enjoy woodland activities. The project has its own facebook page for information about past and future events https://www.facebook.com/CuillinsWood/

Malvern Link Station (Birmingham side) is the first nature reserve associated with a station in the UK. We are providing different habitats such as a copse, a pond/wetland area, a traditional apple orchard, wild flower meadows, pollinator trails and traditional hedges. Malvern Community Forest, supported by the Friends of Malvern Railway Stations, has adopted the station under the West Midland Trains Community Rail scheme.

We are working with Madresfield Estate to reinstate traditionally laid hedgerows in some of their fields, using estate-sourced posts and poles. We will be picking in some of their orchards this autumn. Look out for details on our website for further exciting partnership developments.

Some of our members are keen on Green Woodworking, using traditional tools and skills to make a range of objects. Many carved household goods and more decorative items made this way were replaced with plastic equivalents. If you're interested in learning skills, or avoiding or replacing plastic, contact Dave Munday on 07887546699
